Postmedia Gets Next Round Of “Pandemic Bucks” From Taxpayers In 2021

The way to avoid another lockdown is high vaccinations rates. Canada is now doing well on that metric for both first and second doses, but we need to do better. If you want another lockdown, do nothing.

No. We can't keep locking down and putting experimental crap in our bodies based on how full hospitals are. It's bs. Field hospitals never used, fear fear and one sided journalism designed to do one thing. Make people more dependent on the State. Do your job.

Yes, as you know, I oppose the media bailout, I'd prefer the CBC was privatized. That said, I'm not an owner of a newspaper responsible for thousands of jobs.

The Postmedia empire got its most recent batch of handouts on April 1, 2021. Any wonder that this organization is so consistently supportive of the Governments (Federal, Provincial, Municipal).

People like Lorrie Goldstein “claim” that they oppose having the public bail out the media industry, yet, these feelings aren’t strong enough to make him quit.

Just a thought on why he supports the vaxx agenda.

Wild idea, but maybe this is why Postmedia is still on board with Trudeau and Ford. The pandemic bucks are still coming in, and Postmedia continues to cash in. Can you really trust “journalists” who are being subsidized by the Government? Always be following the money.
